Subject: Chevron Kern River Eastridge CCS Project - Request for Pre-Application Meeting with EPA

Hello David,

I hope this message finds you well. I am writing to request a one-hour pre-application meeting to introduce our Kern River Eastridge CCS Project. We are targeting July 11, or 12 to meet. Key attendees from the Chevron side will include the Eastridge Project Manager, permitting/regulatory, and subsurface subject matter experts. We would especially appreciate any technical feedback you or your team can provide during the pre-application phase of this project.

The draft agenda is below for your review.

Purpose:

- Introduce Eastridge Project to EPA
- Align with EPA on content of Class VI application submittal
- Align with EPA on:
 - Plume modeling methodology (AoR) boundary (CO2 vs. pressure wave)
 - Characterization requirements

Agenda

- Introductions
- Project Overview
 - Regional/Site Geology & Suitability of Site for CCS
 - Vedder Aquifer Exemption
- Characterization Requirements and AoR Development
 - Results of characterization completed to date
 - Data gaps and proposed additional characterization work
- Action Items/Close Meeting

Thank you in advance for your consideration. We look forward to meeting with you and your team.

Best Regards,
Roya

Roya Kambin
